Support our Local Shops - Keep free "Stop and Shop Bays"
The Local Implementation Plan (LIP) 2019-22 approved by the 12th February Cabinet states:
"Stop and shop" bays were implemented to encourage motorists to use local businesses.
Council now notes:
That the proposal to *"review these free bays which encourage short distance vehicle trips"* has been agreed WITHOUT any consultation with residents, or more importantly local businesses, most of whom are appalled by the proposals;

our local shops are already struggling and continue to face fierce competition from nearby boroughs, where parking is more accessible.
Council therefore calls upon the Labour Administration to continue to support our local shops by leaving the free "Stop and Shop" Bays in place.

Declaring a Climate Emergency

Council notes that:

- a) The 2018 IPCC report states that we have just 12 years to act on climate change if global temperature rises are to be kept within the recommended 1.5 degrees Celsius;
- b) All governments (national, regional and local) have a duty to limit the negative impacts of climate breakdown, and local governments that recognise this should not wait for their national governments to change their policies. UK boroughs need to commit to aggressive reduction targets and carbon neutrality as quickly as possible;
- c) Urban areas are well placed to lead the world in reducing carbon emissions, as their higher density opens up a range of sustainable transport, buildings and energy opportunities;

In light of the above, the Council therefore agrees to:

1. Join other Councils in declaring a Climate Emergency;
2. Call on the UK Government to provide the necessary powers and resources to make local action on climate change easier (as set out in 3 and 5 below);
3. Aim to make Ealing carbon neutral by 2030, taking into account both production and consumption emissions;
4. In light of 3. above, request Overview and Scrutiny Committee to urgently review and make recommendations on revisions to the Council's 2013-2018 Energy Strategy in light of the recent IPCC report and the latest Ealing data in order to achieve the revised target;
5. Continue to work with partners across London to deliver widespread carbon reductions.

11C Motions not for Debate

i). Councillor Bell to move

Solidarity with New Zealand

Ealing Council expresses its utter shock and sympathy following the terrorist atrocity in Christchurch, New Zealand where 50 Muslim worshippers were killed by a right-wing extremist inside two city mosques. We mourn and stand in solidarity with our fellow commonwealth citizens. We are one, you are us, and we send our wishes of love and compassion to all New Zealanders.

On Friday 15th March, thousands of British Muslims in the London Borough of Ealing and the UK were preparing to attend the Friday prayers at their local mosques. This weekly act of worship was overshadowed by the horrific news of a terrorist attack thousands of miles away in Christchurch. Muslims were targeted as they too went to attend the call to prayer at their local mosques, with 50 never to return.

Ealing Council, alongside all our local community, stands together to condemn the deadliest mass shooting in modern New Zealand history as proof and evidence that terrorism has no colour, has no race, and has no religion. The world has witnessed many terrorist attacks on people and communities. The Borough of Ealing will always stand united and condemn in unequivocal terms anyone who attempts to demonise, dehumanise and attack people for their colour, their faith, their gender or their sexuality.

Terrorists have sought to divide our great city apart with an evil ideology, and they have failed and will continue to fail. London has stood strong, and the world can see in us an example of love and unity. We are determined to let no one divide us and show unity and solidarity with communities in Ealing who are feeling the ripples of fear and sorrow following the events of 15th March.

No idling Zones

Council notes:

1. That Ealing has only issued 35 Penalty Charge Notices in relation to engine idling offences between 2006 and 2009, and none since 2009.
2. In 2012 the London Borough of Ealing reduced its number of automatic monitoring stations, closing the stations at Acton Town Hall.

3. The Air Quality Action Plan (2017) stated that there have been concerns, and historical breaches of the air quality objectives, over a number of years regarding PM10, particularly at Acton Goods Yard, Horn Lane.

4. That road transport is the principal source of both particulate matter and nitrogen dioxide pollution in London.

5. That a 2018 report from London Councils states that nitrogen dioxide's "Impact on children is especially bad, with epidemiological studies showing that symptoms of bronchitis in asthmatic children increase in association with long-term exposure to NO2, as well as stunting lung growth".

6. That a number of London boroughs including Hackney, Camden and Greenwich operate a number of 'School Streets' whereby only pedestrians and cyclists can use roads close to a school's entrance at start and finish times.

Council believes:

1. That air pollution poses a serious threat to the health of young people.

2. That whilst many of the policy interventions to rectify this problem would have to come from a national government or the Mayor of London, Ealing Council needs to do more.

3. That there should be School Streets and No-Idling Zones around Ealing's Schools.

4. That in the long term, Ealing should move towards them becoming universal at every school in the borough.

5. That it is important to provide parents with healthier and less polluting alternatives to driving their children to school. Therefore, the Council should invest more in walking and cycling, which have seen a drop in the proportion of residents cycling over the past three years.

Council resolves:

1. To implement School Streets or No-Idling Zones around every primary school in the borough by 2022.

2. To increase spending on active travel in future budgets.

3. To conduct a feasibility study of using a Workplace Parking Levy as a way to fund this.

4. To encourage local businesses to sponsor green walls on school buildings and tree planting near schools.

|------------|---|----------------|
| 12 | Reports from Officers | - |
| 12A | Annual Standards Committee review | 21 - 28 |
| 12B | Changes to the constitution | 29 - 54 |
| 13 | Urgent key decisions exempted from call-in
The following key decisions have been exempted from call-in since the last meeting of council:
Contract for Responsive Repairs & Minor Voids - ICMD

Reason for Urgency
The decision is urgent by reason that the current contracts expire on 31st March 2019. An urgent decision is now required in order to ensure continuity of vital services; the timeline means that the decision cannot reasonably wait until call-in has expired. | - |
| 14 | Appointments to Committees and Other Bodies | - |
| 15 | Date of Next Meeting
The next meeting will be held on 7 May 2019. | - |

In the event of an emergency your attention is drawn to the evacuation instructions displayed on the wall by the entrance to the Council Chamber and Public Gallery. First aid advice will also be found here.
