

Responses to actions arising from the Scrutiny Review Panel 2 – Community Centres

26 November 2015

Consultation with Community Centres

- (i) That the Panel liaises with Ealing Music Service so as to understand the plan's for the services relocation

The Head of Ealing Music Partnership, Yogesh Dattani, said that he had seriously considered relocating Ealing Music Service offices to Greenford Community Centre and would still wish to do so providing the future of the building is secure.

- (ii) That the Panel liaises with Ealing CCG and Ealing Public Health to encourage the use of the facilities provided by Community Centres for health promotion activities

Ealing Public Health commissions all of its services, bidders have to provide venues and include these in their proposals. Ealing Public Health is willing to highlight community premises in the borough to potential bidders as being possible venues they may wish to consider.

Ealing CCG have been asked whether they would contemplate using community premises as potential venues for health promotion activities and are considering their response to this request.
